Subject: Light Show from Speaker Port Posted by HaknHendrix on Sat, 08 Jan 2005 21:21:53 GMT View Forum Message <> Reply to Message

I have a pair of 4 Pi Towers loaded with Delta 15 Pros using an Eminence PXB2-1k6 crossover. My son noticed that there was light emanating from the back of the speakers thru the ports. When the system is cranked up, the fuse lights up like a light bulb - what is up with that?ThanksHAKN
