Install in an OB or ( my perference) a sealed enclosure. With that Qts it gives lots of performance with a simple enclosure. Looks good too.ron

HI,Thanksfor bringing this to everyone;s attention. here are my cents:Looks like a good driver in a box tuned to about 80 HZ, wih a step filter reducing the 1k+ spectrum by about 6 db. ANd a supertweeter.Overall, seems like a good fullrange in a 3 way set-up (or perhaps I should say wide-range).-akhilesh
