I have my Dads vintage speakers. One 15" university triax and one 15" Stephens Coax. I have to have a matched pair. Anyone know which would be best to keep and search for a mate? Thanks, Pete

Best to watch eBay and Audiogon for stuff like that. Someone here may see your post and contact you too, but I'd watch the online auctions.

Keep both. Both sound good. IMHO Stephens are a bit better on the midrange at least the ones I've heard (never heard a 15" stephens though). -akhilesh
