I was searching for open baffle in audio circle forum and found these speakers. Does any one know what speakers are these?. You can find them at this web page.

This design isn't a line array. It looks like a three way with ported dual (not open baffle, i.e., dipolar) woofers and the upper MTM composed of perhaps the B-G Neo 8 as the Ms and a Neo 3 as the tweeter. The B-G Neo series can be mounted as dipolars as I assume that what is going on in this design. Jim
