Hello Guys!Has anyone confirmed their intent to exhibit at GPAF next year? I know it's early, but I just finished up RMAF, finalized my CES/THE SHOW plans and am wondering how many will be attending GPAF, so I can make appropriate plans. Also, trying to decide what to bring--system wise.Take care, Lee

Here is a list of those that have already committed to coming to the Great Plains Audiofest:

AcousticsShould we pen you in?There were several others that said they intended to come to the 2006 show, but this list is those that reaffirmed they plan to be there in the last couple of weeks. I'm expecting most if not all of last years exhibitors to be there at the 2006 show. I think this year we'll extend through Sunday and have seminars. If you're interested in giving a cryogenics seminar, let me know. I think people would enjoy it.

Yes, "pencil" me in. Barring unforseen circumstances I will be there.I'd be happy to give a seminar on cryogenics if the interest level is high enough. Best Regards, Lee

Duke is one of the real good guys in audio, that's for sure.

Be thinking in terms of what you might want to do for a presentation. We'll schedule them without overlap so everyone can attend every seminar, and you can expect good attendance that way. It's a lot of fun for everyone.
