Could be Magnepan MMGs at 300 bucks a pair. (MMG W) You can get a matching center for 300 bucks more. (MMG C)  
Magnepan MMG

The dimensions dpi gave were "only half meter tall and half as wide." The MMG-W's are roughly 40 x 12". BTW, I have a pair of MMG-W's and could not be happier. They did, however, take weeks to finally break-in. The "music" take came out the first time I hooked them up was, in a word, bad. Now I could not be happier (OK, I would be happier with bigger Maggies.)....Colin

C.T., A very good call on the rec - especially for the price. Check out this review at:
