Anyone know of any ESL DIY websites? I borrowed a pair of Inner Sound Eros speakers from a friend of mine. They're working but one speaker is quieter (putting out less sound) than the other. I'm hoping to find advice on how to check it out and find whats wrong.Thanks, -Karl

Karl: if you go to this link you will find more site links than you probably want on ESL's. Regards Moray James.http://www.diyhifi.org/forums/viewtopic.php?t=305
