I just bought a DEQ2496. Now it's time to shop for a mic. Know issues with the behringer? Alternatives to the behringer? (within price reason please)

I use the little Panasonic WM-60AY microphone on a boom.

The behringer mics work pretty good for the price, the only other ones that come close are made by Earthworks and they start at around $300.00HTHBill W.
 Earthworks mics
