The Ford deck or the Ford speakers? '02 Ranger with 6x8's in doors and rear.

Maybe a good home for those little 103E's. Mount 'em on a 6 x 9 baffle plate adapter and see if they sound good in your Ranger. Whaddya think?

Both:) I think I know what you mean though, my GF has a 2003 Escape, and it is terrible sounding. I bet if you change the deck, things will be a lot better. I usually find stock speakers are OK with a better head unit, but YRMV. Good luck,Jeremy
