Hello there! I have this old GE radio, model X340, wooden case and un round dial, please see pics. I made my homework searching different sites but get no clue about the year of making... Can somebody help me? Thanks a lot in advance and happy holidays!

Looks like it was made in the 50's to me. I'll do some checking to see what I can find and write to you. Does it work well? It sure looks nice!

Sorry my reply is so late, particularly since I have no real info. I've been meaning to reply and kept forgetting. I looked around in a few books and CDs for your radio, and the bext I can say is it's probably from the 50's. It's so hard to pin down the exact dates sometimes. Hopefully someone that knows exactly will see this thread and respond.
