HiI am restoring an Andrea radio 1E8 but I have no idea of what its cabinet looks like. If anyone has a photo or image and its measurements I will appreciate if you pass it on to me.Charles Denyer

Do you have the chassis, but not the cabinet? Or is the cabinet just in bad shape?As for schematics, I'm seeing 1Ax, 1Bx, 1Dx and 1Fx models and also 10Dx in Rider's Volume 8. You can also find them on the Andrea Radio Corporation page on NostalgiaAir.org.
