I have a Bendix 0526E. It uses 12SQ7, 12SK7, 12SA7, 35Z5GT, and 50L6GT. The set is dead, and I need a schematic. Does anyone have one they can email me? I would really appreciate the help. Thanks! Charley.

You can find it in the Rider schematic collection, Volume 15. Volumes 13-16 are available on CD, the entire 23 volume collection on DVD or you can get the individual schematic, alone. See www.RadioEra.com. Here's a link directly to the 24 volume DVD. Here's a link to the Volumes on CD. (Scan down the page for RIDER'S "PERPETUAL TROUBLESHOOTERS MANUAL") And here's a link to individual schematics.
