Good morning! My name is Terry and I have been involved with electronic repairs for over twenty years and would appreciate any help in knowing the date this RCA floor model radio was manufactured. It is a RCA A 36 from what I gather that is stamped on the back on the tag along with the serial number, it is working just fine, but out of curosity would like to know the date. Any help greatly appreciated. Thank you Terry.

I couldn't find much info about the RCA A-36, but I did find a photograph of the radio dial. From the style, I'm guessing it was made in the late 1930's or early 1940's. Sorry I couldn't be more helpful.
