General Electric GE 12 inch permanent magnet speaker from late 30's or 40's console radio. i need one to make my radio "look" original rather than installing another vintage brand or generic speaker. Email me for some pictures and say "GE Speaker" in the subject line if possible. it does not have to be an exact replacement like the one in my photos. it just has to be a GE speaker, look something close to the original, and be of that General Electric "style" of the 30's and 40's era. thanks for looking.vinyltocdr@msn.com

If nothing else, maybe you could buy a "beater" radio on eBay or something to rob the speaker from. Then again, every time I've done that, I end up wanting to repair the beater too.
