I found a Wards Airline 62.2714 radio / phono combination sitting on the curb with a sign that read, "Take me" and I did! Am now hoping to restore the unit and am looking for a schematic, can anyone suggest a source?

Montgomery Ward radios are hard to find schematics for because they buy chassis from OEMs and brand them as "Airline". The best thing to do is search through the Rider schematics to find a chassis with the same tube complement.
