I am seeking a replacement mid range/bass unit for my PE1. I am told it is a Kef Model B200 SP1039. Does anyone know why I may find a replacement unit

celef has become proac. they may help you out. celef stood for celestion and kef, the speakers they used in their designs. could be someone at proac can help you out if he was part of celef back then.

Or try wilmslow audio - they can supply a full range of alternates if original Kef units are not available.
