Hellol have a pair of five way tower speakers from the 70's and would like help in identifying the brand. They have a logo on the grills that says SOUNDT and the model is MT5. If anyone has any info on these it would be greatly appreciated.Thanks

Hi Daniel.I am not sure. I just got second hand (old) SOUND speakers made in Japan. What can I say. They are 2 ways and the wood is immaculate. They are small/shelf size, the wood is very nice indeed and I thought they were english first because of it, like Tannoys. (Do you have a pic?)Regards
