This time we're meeting at Russ' house in McKinney on March 18th. It's an easy driver from many parts of Oklahoma, including Tulsa. I'm sure we'll have the usual plethora of DIY tube, solid state, amps, preamps, DAC's, speakers, plus some really nice factory-built stuff too. Newbies are especially welcome. Click on the link for directions and pictures from our past meetings.
Lone Star Bottleheads

Sounds like a plan. I'll try to be there! My Dad's birthday is the weekend prior, so that may prevent me from coming. But if not, I'll be there. Thanks for letting us know!

This could be our best meeting yet! In addition to all the stuff our regular members plan to bring, Russ has invited Danny Ritchie to demo the new AV123 XLS1 speakers he designed for Onix that got such a great review in Audioholics recently. Gary Dodd will bring his new battery powered preamp. Bob Brines will be there with the latest version of his Lowther based MLTL and a 6BX7 PP amp that Jef Larson of Abraxas Audio built for him.

I'm coming there for sure, plan to leave around 10:00 AM so I'll be there early to mid afternoon. Bill Wassilak says he wants to come too, so we'll see you there!
