Hello Here's a place, <http://colomar.com/Shavano/stereocab.html> . I built this cab for my nephew,
but I made it mono with switches in back for 4 and 16 ohm impedence. And also a switch for the
piezo's on or off. The speakers are delta pro 10's, real cheap at parts express. Really nice
speakers. My nephew loves it. He uses a mesa boogie head. Thas all.Rick
