1.) Why does the fender Blonde showman tremolo based for surf tremolo have a certaincompression and decay for the tremolo? 2.) How is it set to have the tremolo compression?Not using a compessor this is internalin the fender showman amps done in the design 3.) How to set the Tremolo Decay?a.) What network makes the tremolo Decay? long or short? b.) what components can i changeto play with the tremolo Decay? 4.) Does the tremolo lamp have to do with the sound of it ?
