On Thursday, May the 4th, 2006 at 1:02:03 in the morning our clocks will show 01:02:03:04:05:06.Wow!The next digit phenomena is going to happen in 72 years, on June the 5th, 2078 at 12:34. The clocks will show 12345678.I will post you a reminder, guys, so you won't miss that amazing event in 2078. Watch your clock tonight and then!!!

Thanks Alona,I copied you post and sent it too my three kids, they will like this a lot. Too bad it is way past their bed time, but they still like stuff like that and are young enough so they will probably still be around for the next one.Martin
