Hi allrecently had to sell dual rec....a very sad day..I am looking to get a new amp that can get as close to the oomph of the boogie .. i know a boogie is a boogie but one can only hope there may be something out there that someone knows about. Also something with a real good clean sound my prerequisites are 1. max 40w 2. under £500 3. tubes4. min 2 channels 5.combothank you for your help
