Hello, would anyone have a couple of knobs for the dbx 166 compressor - original, NOT the A or XL series. The colors I am specifically looking for are the orange & green, but will take any color or without the color caps.I am more than willing to pay - something fair of course.If you have any that you'd be willing to part with - off a non-repairable unit maybe, please let me know.Thank you very much.ps - yes I have tried dbx service & they don't carry any stock for the older, discontinued models.
