We bought a couple of Peavey KB 1's for our needs. We tried out the used one Sunday when we had a Blue Star Memorial dedication at the museum. It worked great and everyone liked it. The dedication took me back to the 50's when the US was a gentler kinder place to be. We had a special canopy setup for the vets so they could be out of the sun (it was 90+). Again, I want to thank you two for your recommendations.
