This is pretty cool. Just enter your zip code in the site below, and it tells you which gas stations have the cheapest prices (and the highest) on gas in your zip code area. It's updated every evening. <http://autos.msn.com/everyday/gasstations.aspx?zip=&src=Netx>

Tulsa isn't bad, Austin is a little higher. Compare prices with Washington DC, Los Angeles and New York.

I am sorry. You have to move to Tulsa, Oklahoma. Or even Odessa, Ukraine where they pay \$0.98

Or Venezuela where they pay 28c. I could fill the tank on the Jeep there with a two dollar bill then

drive all over the country. It was great. I can't move anywhere where there is no ocean. I'm a waterbaby.
