My husband and I love loud tv loud music etc.. however we have children so we don't wanna get anything to loud. Is there any particular system that allows that "in the Theatre" feel without the excessive loudness? What do I need to look for in a system to get this?

I think it's good idea if you try Philips HTS3357 DVD/DivX/USB/HDMI 5.1 Home Cinema System. It has only two speakers. The sound is good and it's not too noisy. I have one at home.
