Subject: Anyone have interesting DIY interconnects? Posted by Norris Wilson on Fri, 09 Jun 2006 01:52:49 GMT View Forum Message <> Reply to Message

There was a thread a while back looking for interconnect designs for the DIY crowd. I was wondering if anyone came up with any worth trying?Norris

Brian at Venus HiFi carries Zu cables. Spkrman57 is using the \$29 variety and is pretty happy with them. I'm going to order a pair as soon as I get a chance..... http://www.zucable.com/pil/index.html

Subject: Wow, \$29 for 1 meter pair! Posted by Norris Wilson on Mon, 12 Jun 2006 14:24:08 GMT View Forum Message <> Reply to Message

Colin, Thanks for the sugestion of the Zu PiL cables. I am not sure you can built anything any better for \$29, they are worth a try. A decent set of four of the made in China male gold plated brass RCA plugs will cost that much when you add in the shipping. Norris

That was pretty much my thought. Brian at Venus is a real good guy to deal with from what I hear...
