You guys have to check this new product out. It's great for applying wipe-on finishes. The long fibre in it keeps it viturally lint free.
Windex Clean & Shine

Great tip, thanks. Every time I apply tung oil, I have to watch for lint. Maybe this will work better.

You got me to look at them vs. my old standby Handi-Wipes.The Windex are cheaper but first I'll have to try before I switch.Thanks for the tip.

We don't have Handi-wipes up here in Canada. But I'll look it up this weekend when I'm in Baltimore.
