I'm trying to find a bit of an oddball size. What I need is a 7/16th dia corner round bit with a 1/4" shaft. Can find plenty .4375" dia with 1/2" shaft... but not with 1/4" shaft. Any help appreciated.thanks,MSL

Thanks Bill for looking. Crisis is averted! My shopmate found that he did have a 1/2" collet for his router--- and for some reason everyone does have the 7/16" round over bit with the 1/2" shank--- so I think we're back in business :=)Mike
