got a few questions from folks looking for details on the Guinevere circuit. Here are three posts which make a good start:http://audioroundtable.com/GroupBuild/messages/94.htmlhttp://audioroundtable.com/GroupBuild/messages/179.htmlhttp://audioroundtable.com/GroupBuild/messages/424.htmlheaters:http://audioroundtable.com/GroupBuild/messages/397.htmlThere's more of course, and some of your favs will make a more complete pic. If for some reason the pic in one of my posts does not show, email me and ask, the hosting may have to be abandoned.regards,Douglas

I would like to make all the schematics and drawings available in the GroupBuild/Projects directory so a person can reference them easily.How about as things are finalized and an agreement is made as to what drawing(s) and document(s) should be archived, E-mail webmaster@AudioRoundTable.com with them and we'll put them in this directory. I think it would be great to have the documents archive centralized.
