Hey, Not sure if this is the right place to ask this, but i was wondering where you can buy the plastic bobbins used to wind your own inductors for passive crossovers. I've tried the obvious searches in rs and farnell. I'm in England, so the suppliers need to be local here. Thanks.

Hey-Hey!!!,While it isn't in the UK, I'd help with the shipping arrangements. I'd bet that they would be available from Heyboer. Write them(Heyboer TX in Grand Haven Michigan) and ask, and if it's a GO, call me in.cheers,Douglas
