A customer just traded in a Belles 20A preamp on an Audio Note preamp, so some lucky 'phile gets to put this baby under his or her tree at minimal expense! It includes a remote, original box, packaging and manual. This pre is a line stage featuring 4 12AU7 tubes and a HT bypass for those who like to mix their music and movies in the same system.New: $2,200.Used: $1,000. The unit looks great, sounds like it should, but since it is used, it will be sold AS IS (guaranteed not DOA!)Shipping and Insurance (required) are additional. Boxed wt is 18lbs, shipping from 06033.MC, Visa, Amex and PayPal are accepted. (3% surcharge on PayPal.)
