Lightly used pair of Paradigm monitor series(2-ways--- need a home--- would make great rear in a home theatre system--- suprised how well they ran on my tube amp(90db rated)--very very clean--they are used but look super on the inside and outside---even the grills are very nice (rated at 9+)--- must admit they (at least to me) sound better on stands although they are sized as mini-monitors --got raves as fronts only watching movies last week --- Jim (PS \$200.00US)
