Hello tube freaks! For my Nixie Tube Tester I'm looking for some special tube sockets. I am glad about every hint where to get them and for every offer. Pictures of the sockets you can find here: <http://www.tube-tester.com/sites/nixie/socket/nixie-sockets-search.htm> Here the description of the sockets:

B17A Socket: Description: 17pin, Pin diameter=1.02mm (0.040"), Pin circle diameter=18.2mm (0.718"), Pin spacing=20° Used for: ZM1200 Pandicon, GR10H Nixie Tube

B26A Socket: Description: 26pin, Pin diameter=1.02mm (0.040"), Pin circle diameter outer=18.2mm (0.718"), Pin circle diameter inner=11.1mm (0.437"), Pin spacing(outer)=20° Used for: GR10J Nixie Tube

B27A Socket: Description: 27pin, Pin diameter=1.02mm (0.040"), Pin circle diameter outer=18.2mm (0.718"), Pin circle diameter inner=11.1mm (0.437"), Pin spacing(outer)=20°, one pin in the middle Used for: Z572S Dekatron Tube

SK-116 Socket: Description: 11pin, Pin diameter=0.45mm (0.018"), Pin circle diameter=9.4mm (0.370"), Pin spacing=30° Used for: ZM1120, ZM1122 Nixie Tube

SK-176 Socket: Description: 13pin, Pin diameter=0.51mm (0.020"), Pin circle diameter=oval Used for: NL-4998, B-4998 Nixie Tube

SK-207 Socket: Description: 14pin, Pin diameter=0.45mm (0.018"), Raster: see Picture!!! Used for: ZM1330 Nixie Tube

TSB-14P Socket: Description: 14pin, Pin diameter=1.02mm (0.040"), Pin circle diameter=20mm (0.790"), Pin spacing=22,5° Used for: CD11, CD14, CD94, GR-201 und GR-211 Nixie Tubes

11 pin Russian Socket: Description: 11pin, Pin diameter=1.02mm (0.040"), Pin circle diameter=9,4mm (0.370"), Pin spacing=30° Used for: russian IN-2 und IN-8 Nixie Tubes

Thank you very very much for every response! don't hesitate to write me: Dieter Wächter email: smile1973@web.de Thanks for your help! Pictures of the sockets you can find here: <http://www.tube-tester.com/sites/nixie/socket/nixie-sockets-search.htm>

Tube sockets

I would recommend Jan Wuesten, he sells a lot of surplus Russian and European tube sockets. The stuff you're looking for is mostly VERY difficult to find. I have a big sack of 14-pin Nixie sockets (same size as 9-pin miniature tube, but with 10 pins in a circle and 4 more in the center). www.askjanfirst.com BTW, the 26 pin sockets were most often used with Beam-X counter tubes.
