The October meeting of the Houston Audio Society will be at my house in the west suburbs of Houston from 10:00am to noon on October 14th. The topic is speakers, and we will hear three very different designs: The Jim Griffin MLTL single driver bipoles, the Studio One Pi towers, and a pair of MTM's using Parts Express Reference series drivers. This meeting will also feature our annual audio garage sale. Visitors are always welcome at our meetings. See the link below for information.

Very cool! That's the day after the Prosound Shootout in Tulsa, so I can't make this one. But please post photos!

Yes, please post pics!I wish I could make it to one of these someday. Especially this one--sounds like there be some cool stuff to take off somebodies hands.
