Nearly mint condition. I can find no flaws, but will call "excellent" to be safe. I purchased these a year or so ago, and ended up using a 16 ohm pair I already had, because of better system matching. I am selling for the same price I paid, minus my shipping cost. Asking price is \$300 plus shipping from 61910email with any questions at [jerrod\\_harden@yahoo.com](mailto:jerrod_harden@yahoo.com)
