Hi Bill,Nice job on the price point. I'm in for 2 sets (for 4 horns) but would like to wait to see the throat adaptors before completing the purchase. Any problems with that?Also, do you think they're be ready for pick up by Oct 6?Gar.

Bill, I'd be up for enough to make two horns also. I'll contact you to arrange the details. Thanks for going to the effort to do this, I'm sure these little one-off kinds of things are more a labor of love than a profit making thing.

Yep yep; put me in for a set and throat adapters also. I can pay by check right? Sawtooth National Bank; the check's good , they know me there. No seriously thanks for what basically amounts to a freebie here. You earn some good Karma for the afterlife. Just hope you don't come back as an Audiophile.

Will the adapter plates be regular two bolt holes?
