I have a pair of unused DCA 4" full range drivers that I'm not going to use. I just bought one of Fritz's cabinets for the DCA 5.5s, and I'm plenty happy with those so the 4" drivers need to find another home. Make me an offer. I also have the following drivers available: One pair Dayton Audio Reference Series High Fidelity Subwoofers, new in boxes: \$175/pair One pair Dayton Audio Reference Series High Output Subwoofers, new in boxes: \$175/pair One pair PHL 2520 8" high efficiency midranges, mounted/tested: \$200/pair I also have an Audiogon ad up for a pair of JBL (Meyer Sound) 2451 Compression drivers with machined aluminum adapters and 600Hz Tractrix horns, see the link here: <http://cls.audiogon.com/cgi-bin/cls.pl?spkrfull&1222565185> Buyer to pay actual shipping. Feel free to contact me with any questions at pkpickard at lycos dot com. Thanks!
