... for all his help and courtesy in helping me obtain some parts for my Premium Stage Four Pi project. I just got off the phone with him and can tell you all he is a great guy to deal with and talk to. If I lived in or anywhere near Toronto, I would be sure to visit his store (Replay Electronics) because he truly understands what good customer service is. It just seems that in most audio dealers these days you end up talking to teenagers who know nothing about their store's products and are only interested in selling you extended warranties. Its encouraging that there are still good people like George in the audio business. Thanks George!Colin

I'll second that! I've spoken with George more than once, and it's always a pleasure. He's a great guy.
