[www.PiSpeakers.com/Speaker\\_Crossover.doc](http://www.PiSpeakers.com/Speaker_Crossover.doc). Also available online is a circuit evaluation tool called Spice, which contains the circuit models used in the crossover document just mentioned.

distribution for these crossover models is at [www.PiSpeakers.com/Pi\\_Crossover\\_Spice.zip](http://www.PiSpeakers.com/Pi_Crossover_Spice.zip). The crossover document is 2.2Mb and the Spice distribution is 1.9Mb, so expect these files to take several seconds to load.
