Polk Audio will show their reference bookshelf mtm, the LSi9, their RT (reference theater) floorstander the RTi10, and the fest will be the FIRST public demonstration / showing of their DSW PRO subwoofer. The DSW PRO was displayed at CES, but visitors at the LSAF will be the first to hear (feel) it. They are also going to have a pair of Monitor 30's, their entry level shelf speaker to give away to a lucky attendee.

Polk Audio

Oh man! I have a pair of Monitor 5's that I got back in the early 80's. They still sound sooo nice and are what I compare my other speakers to.
