Theater 4Pi's are incredible! I had my Pi's scrambled together so I would have a stereo untill my horns came in. (there is just no room for Acoustats and Theater 4Pi's in the same house) It sounded great with my old horns sitting on top of the cabinets. You could not have convinced me that they would be this much better when finished, but here they are. Yes!! they are soooo sweet. I will try to get pictures ready this weekend.Thanks Wayne!Thomas F.
