You had a chance to have an Abraxas amp home, you dog! I was so impressed with Jef's work. And the Silver Iris w/o the woofer.Great review.

It seems as if this review is going to help these speakers pop off. For the most part I think I'm a little interested in finding out how they really sound.

Could you clarify what you mean by "pop off"?-akhilesh

If I assume you mean "depart suddenly" by "pop off", then I submit you are GROSSLY misreading this review. Of course, you can reach whatever conclusions you like from reading any review, but all I will say here is, any REASONABLE person reading this particular review would not reach the conclusion that the speaker will "pop off". Quite the contrary. My 2 cents-akhilesh

Looks to me like Randle is saying he thinks they'll become successful.

Cannot speak for Randle, but I read "pop off" as "take off." I assumed he was approving of your review, which by the way was very well done.....C
