Who gives a shit!The JBL's are only in 4.5 cu ft enclosures (3677's), the Screen is just a 32" Toshiba, cheapo Pioneer 525DVD and Outlaw receiver.I'm diggin and groovin and tappin my feet and even broke into applause after'Deed I Do'. That got me some looks from the IW (insignificant whaddasayournameis?)Looks to me like DVD-V could rule. Decent surroundsound (DTS, YES!) and the almighty picture. Helen, after all, launched a thousand ships. And No one cared that much about her mid-range!
