I acquired 65 sq ft of Makore veneer on E-Bay tonight which puts the Pi's on track, finally. Check the URL, it's Meadowlarks website. Hope my speakers turn out half as nice!

That's some nice stuff. Where on Ebay do you go for veneer? I've seen some under the Table Saw heading. On that note, I just purchased my first table saw, so the next project should go a lot quicker. Kevin
