Hello,I would like to get plans for the Theater Pi3 speaker.I would like to know which horn is used with the PSD2002 driver in this design. I looked at Eminence web site, but it seems they don't offer horns (or I haven't found them...) Where should I look for appropriate horns ?I really liked your paper on crossover design, very good signal to noise ratio in there :,)Thank you,Daniel

Daniel,You want the Eminence H290 horn available from Parts Express:http://www.partsexpress.com/pe/pshowdetl.cfm?&DID=7&Partnumber=290-554If you're in Canada, its also available from Q-Components (http://www.mcbrideloudspeaker.com)

Eminence H290 @ Parts Express

I was just about to give you that link! But looks like they beat me to it.You can also use the Peavy CH-3 horn lense. I don't know if it matches the 3 Pi plans, but it's another option. I use it, they sound great, other than the two piece design isn't that attractive.Adam
