Hi Wayne and all,I was just wondering if I could approximate the performance of the Theater 4Pi by adding a subwoofer to the Studio 2Pi in my 4m X 5m listening room? Or is the performance of the Theater 4Pi more than the sum of the 2Pi and subwoofer combined?Thanks, Edwin

but it could not compare to something like a PiAlign'ed JBL 2245. So in this respect, a pair of two

capable of 10dB more dynamic range, so they are capable of being played much louder. Both are
