how much are you charging for shipping may I ask?  Because if it's within my expectations, I might spring for the made 2 Pi's instead of the 1 Pi's.  So tempting to get the extra bass (8W tube integrated), albeit placement on shelf...And can you take personal check, or is online transaction the ideal?  I click two online to get a pair, right?

much larger and more expensive.  Prices shown are for single speakers so if you want to order a pair, enter quantity 2.  We take checks, credit cards and PayPal, so you can pay in whatever way is most convenient for you.
