[View Forum Message](#) <> [Reply to Message](#)

Hi Everyone., Anyone interested in a GPAC audio meet? I'd be willing to host one (been a while since I did that anyways). Let me know. Either this coming, Saturday, or the next one, or even the next. Let me know what works for you guys (let me know by email) and i'll get back with a definite day). Time: 2-5 pm. Let me know what Saturday works for folks who are interested. -akhilesh
PS We'll be listening to a lot of gear: Klipschorns (updated crossover) with an 845 amplifier, teresonic magus lowther dx3 single drivers driven by a 45 amp, the DCa 5.5 drivers in a pavo horn and my altec Vott variant triamped with a pushpull 12ax7/el84 for the midwoofs, and a set 12ax7/el84 for the horns. Heck we can even listen to a nice old pair of restored adventures that sound pretty sweet. I don;t have much space for anyone else's gear, but folks are encouraged to bring their own program material. If someone has a sweet pushpull amp (el34 or el84) please let me know (we can use that for the dca setup). -akhilesh

I'd like to get together with you and hear your latest setups. We all met at Steve Brown's place in December and it was great to see everyone. Steve makes some really nice sounding tube amps, and he unveiled one for us there. We can also discuss plans for LSAF. Lots of neat things are going to be there this year. Watch this website for more details.

Love to meet. I've got a PP EL84 and PP6L6 if either are of interest, oh, and a PP 300B.

Sounds great, Steve & Wayne! How does next Saturday, the 2nd of Feb (Groundhog day) sound? Steve, any of those amps sounds great! One with maximum bass would be good, since

the DCA5.5 like an amp that has good bass. SO bring along whatever you think is suitable. Any others up for it?-akhilesh

Wayne, No doubt about Steve's tube amps and preamps. My main system consists of his home-built EL34 triode-strapped single ended monoblocks and a built to my custom request 6SN7 preamp which has some really "big-tone" sound to it!Ron sends Wayne wrote:"We all met at Steve Brown's place in December and it was great to see everyone. Steve makes some really nice sounding tube amps, and he unveiled one for us there."

I just wanted to thank you for hosting the meeting. I sure enjoyed it and even the weather

cooperated. I've heard much about Klipschorns but never got to hear them until now, enjoyed them the most of the several systems we heard. The music was excellent!

Subject: Great meeting today

Thanks Akhilesh for being a gracious host of our group meeting today. I enjoyed the good company and listening to your stereo systems. If I had to make a choice as being the most balanced with fullest sound character of the group. My nod would go towards the Larry Moore 845 SET and Klipsch corner horn combination. And David Merrill's 5.5 fullrange driver wasn't too bad being driven by Steve Brown's PP 300B amp either. All in all, it was good fun, and I am looking forward to the next meeting. Almost as much as I am looking forward to LSAF in May. Norris
