What is the net internal volume of the 36x24x18 cabinet used in the 4pi theater cabinet? What would it cost to make up the 4pi stage system using a 4pi theatre box tuned to 30 - 32 hz, in cherry with a dark, sort of warm brown cherry finish? Approximately what is the shipping cost (total) from where you are to Omaha, Nebraska for such a system? Would it come as cabinets and then components, or all together? Are there any problems with horn damage during shipment? Thanks, Dan.

as walnut, but I'll check with the shop to be sure. The cost of shipping is probably going to be about \$300.00 - \$400.00 using an LTL carrier.
